

Product name : VIR 2500....(1/2)

TRA Code: IMP

Application: Implement

Block tread design with Wider footprint :

- Excellent Traction.
- Low Soil Compaction & improved yields
- Protection for soil & plants.

SSR compound (Special Stubble Resistant):

- Longer Tire Life and defense against stubble which provides better protection on field.

Advance VF technology :

- Can carry heavy loads at low inflating pressure.

Centre zig-zag rib:

- Centre rib improve steering capability and enhance lateral traction

Extra Strong Casing with High Performance Steel belts:

- Provides exceptional puncture resistance, with even footprint to disperse load equally.
- SB offers better impact resistance and defend against stubble to enhance tire more durable.

List of sizes and technical information

Sku No.	Size	Tyre Type	Rim	Unloaded Dimension		SLR	RC	Li/Si	NSD (32nds)	WT (lbs)
				SW	OD					
				mm	mm	mm	mm			
3001080028	VF 280/70R15 SB & SG	TL	8LB	280	773	352	2321	140 D	12.0	64.6

				15	33	15	99			
3001080031	VF 380/60R16.5 SB & SG	TL	12	380	875	398	2628	147 D	15.7	99.4
				15	34.4	15.7	103.4			

Note: VF- Very High Flexion, SB- Steel Belted, SG-Stubble Guard

Product name: VIR 2500....(2/2)

VIR 2500 – MACHINE DEMAND:

- Excellent traction which decreases slippage,
- Low Soil Compaction & improved yields.
- Protection for Soil & Crops,
- Resistant to Puncture & Stubble resistant.

MACHINE DEFINITION: Agricultural implements can be mounted on and towed behind the tractor in order to provide a source of power when the tractor is mechanized. These tires are mainly used for tyre for mixed application in both towed and powered agricultural implements: There are various uses of a tractor depending on the agricultural implement: It can be used for soil tillage, pushing or pulling agricultural machinery or trailers and also used for Air seeders operations.

VIR 2500 APPLICATION- Implement
